

This conference will take place at:

Holiday Inn Auburn

75 North Street
Auburn, New York 13021

Who Should Attend

This activity is intended for primary care physicians and mid level providers, internists, family practitioners, pain management physicians, neurologists, spinal surgeons, neurosurgeons, radiologists who care for patients with spinal, cerebrovascular, and chronic pain disorders or other health care professionals who provide care to patients with spinal disorders.

Objectives

At the conclusion of this activity participants should be able to:

- Identify and describe key risk factors in the treatment of stroke.
- Describe different treatment options for stroke patients.
- Review several different treatment options for spinal disorders including physical therapy, injections, observation, and surgery and describe the role of each.
- Recognize the gaps in current understanding of spinal pain and recognize areas of controversy meriting further research.
- Describe the role of surgical, interventional, pharmacologic and non-pharmacologic approaches for treating pain of the spinal origin.

Accreditation and Certification Statements

This activity has been planned and implemented in accordance with the Essentials Areas and Policies of the Medical Society of the State of New York (MSSNY) through the joint sponsorship of the Rochester Academy of Medicine (RAM), University of Rochester and Auburn Memorial Hospital. The Rochester Academy of Medicine is accredited by the Medical Society of the State of New York to provide continuing Medical Education for physicians.

The Rochester Academy of Medicine designates this live activity for a maximum of 3.5 *AMA PRA Category 1 Credits™*. Physicians should only claim credits commensurate with the extent of their participation in the activity.

Fees

This educational event is **FREE OF CHARGE** to healthcare providers and is made possible by a grant the Fred L. Emerson Foundation of Auburn. The foundation has generously supported the initiatives of Auburn Memorial Hospital in providing high quality healthcare to patients in the surrounding community. Offering educational opportunities for healthcare providers together with creating heightened awareness of disease prevention within the Auburn community, is at the heart of the Foundation's mission.
